

### Note on Review Materials

I include here

(1) a copy of the exam I gave the last time I taught this course. (Sikhism was included in exam #1 that semester, but is not this semester, so disregard those questions). Test yourself!

(2) a vocabulary list. The definition indicates (H), (J), or (B), meaning that the term is used by Hindus, Jains, or Buddhists. I will add a few more terms (from the Dalrymple reading's Hinduism chapters) and post an updated list in a few weeks, but the terms will otherwise be the same.

(3) The "ER spr 2016 Exam#1 Review" is the power point review I did before the exam; I will do a similar one for this class, but the slides will be mostly the same.

(4) Don't forget the map component--see the last pages of the syllabus for the blank map, and the list of countries and religions.
